# ANNUAL FIRE SAFETY REPORT

## From the Desk of the Fire Marshal

Our business is your business! We strive to insure that the students, faculty, staff and visitors on our campus can live, learn, teach, work and enjoy themselves in a safe and healthy environment. We review construction drawings prior to construction. Inspect building projects during construction. Inspect existing facilities-Provide fire/life safety training for all students, faculty and staff-Investigate and resolve fire related issues-Train event workers on what to do in the event of a fire-Review all planned events and review/attend all major events (events with large numbers of guest expected)-Provide and maintain fire extinguishers throughout the campus facilities. Serve on state and national committees in an effort to improve codes and standards throughout the nation-Provide our services to other colleges and universities throughout the state-Assist and escort state inspection agencies in our facilities.

In 2015 the University of Kentucky experienced a major expansion. With the development of new Housing Facilities (Boyd, Jewell, Patterson), expansion of the Hospital, expansion of Commonwealth Stadium, the 90 (Dinning Facility, offices and Crisis Management) and new Academic Science Facilities. The Fire Marshal's Office (UKFM) has continued to insure that these facilities are designed, reviewed, inspected and constructed in accordance with the required codes and the University of Kentucky standards. We strive to provide the students, faculty, staff and public with a safe environment. We reviewed, inspected in excess of \$1 Billion in Capital Projects (CPMD). In projects in which the UKFM has jurisdiction, we reviewed, inspected and issued Certificate of Occupancy in excess of \$5.4 Million. This year we reviewed 155 different projects-Conducted 358 inspections-Issued Certificate of Occupancy or closed 141 different projects.

In the area of fire safety training we not only want to make sure that our campus community has the best training available, but we also have attended conferences to make sure we stay up to date on any trends in campus safety. We conducted 407 inspections, observed 213 Fire Drills and held 345 fire/life safety classes. A total of 21,655 students received training. This office was represented at CAAK (Code Administrators Association of Kentucky) Conference, CSHEMA Conference, NFPA (National Fire Protection Association) Conference, Congressional Fire Services Conference and Campus Fire Safety Seminar.

In an effort to improve safety at the University of Kentucky and throughout the country, Assistant Fire Marshal, Jason Ellis represents this office on several national committees. He serves on the NFPA Technical Committee for sections 45, 101 and 5000 as a voting member. He is also a principal member of the ICC (International Code Committee) working group for the IFC (International Fire Code) Fire Safety in Higher Education Committee.

Our relationship with the LFUCG (Lexington Fayette Urban County Government) Fire Department continues to grow. We supplied facilities for the State Fire School and organized and conducted training for the local emergency response units on working construction sites. We have conducted fire safety classes in conjunction with the local fire department and emergency response agencies.

We used the Mobile Burn Unit (see photo on page 9) on eight different occasions. The Mobile Burn unit continues to be our most effective teaching tool, in demonstrating how quickly a typical student housing

# ANNUAL FIRE SAFETY REPORT

room will burn. Four different times in September and October the unit was demonstrated on campus. The unit was demonstrated at Transylvania, Northern Kentucky, Eastern Kentucky and Murray State Universities.

In addition to inspecting, maintaining and training in the use of fire extinguishers, this office is also training in the use of AED's. The University of Kentucky has been populated with AED's and our office is now conducting two training classes every month. These classes provide certification in the use of AED's.

Social Media is a great way to stay in contact with the community we serve. We are constantly trying to get fire safety messages out and to let friends and twitters know what we are doing. Facebook and Twitter are great tools. They have proven useful in getting our messages to out.

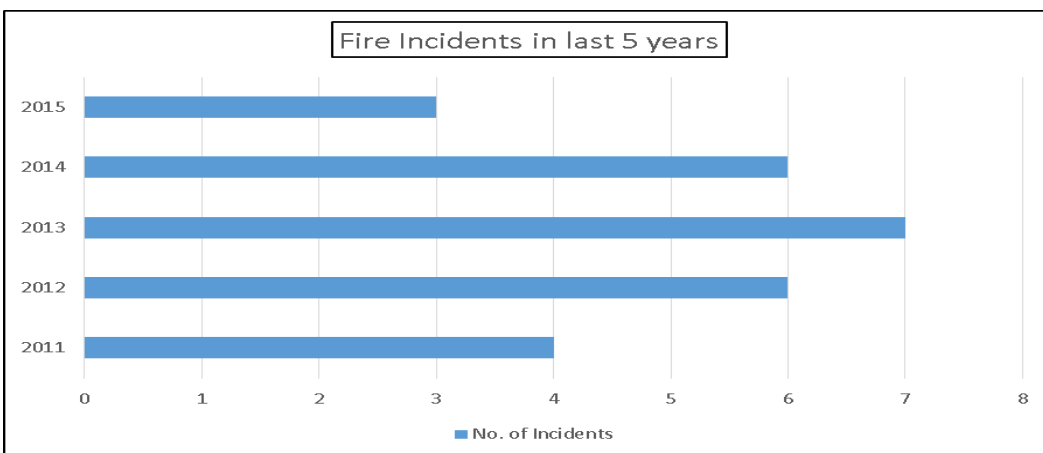

Be assured that the Fire Marshal's office is making every effort to make sure that the University of Kentucky stands out in safety.

Greg Williamson

Fire Marshal, University of Kentucky

# ANNUAL FIRE SAFETY REPORT

## Fire Statistics

### Calendar Year 2015

Date Occurred	Building Name	Cause	Injuries Requiring Treatment	Deaths Related to Fire	Value of Property Damage Caused by Fire in USD
8/30/2015	Woodland Glen 5	Cooking	0	0	0
9/29/2015	David P Roselle Hall Rm. 410	Cooking	0	0	0
11/11/2015	Blazer Hall, Rm.314	Cooking	0	0	<500.00

### Calendar year 2014

Date Occurred	Building Name	Cause	Injuries Requiring Treatment	Deaths Related to Fire	Value of Property Damage Caused by Fire in USD
1/22/14	Holmes Hall	Burnt food left in oven	0	0	<\$500.00
2/17/14	Shawneetown A	Stove left on in mechanical room	0	0	<\$5000.00
2/25/14	Greg Page Apts. Building 1 (243)	Fire occurred in a light fixture in bathroom	0	0	<\$1500.00
4/6/14	408 Lindenwalk	Trash bin set on fire (NCAA)	0	0	<\$100.00
6/2/14	Kirwan Tower	Fire pump malfunction	0	0	<\$5000.00
8/27/14	Blazer Hall	Electrical short in ADA access button	0	0	<2000.00

# ANNUAL FIRE SAFETY REPORT

## Fire Statistics for Calendar Year 2013

Date Occurred	Building Name	Cause	Injuries Requiring Treatment	Deaths Related to Fire	Value of Property Damage Caused by Fire in USD
7/18/13	Greg Page Bldg. 8 Apt G	Cooking fire. Damage limited to stove.	0	0	<\$500.00
09/07/13	Patterson Hall Rm. 115	Microwave caught fire. Fire limited to microwave, floor and wall.	0	0	<\$1500.00
9/13/13	Holmes Hall	Electrical Fire in student room. Outlet and items plugged into it damaged	0	0	<\$1000.00
10/01/13	Kirwan I	Dryer caught fire in Basement Laundry Room. Dryer overloaded	0	0	<\$500.00
10/25/13	Blanding Tower	Poster lit on fire in common area.	0	0	0
11/24/13	Keeneland Hall	Stove fire in Café. Staff used extinguisher.	0	0	<\$500.00
12/10/13	Blazer Hall	Cooking fire. Extinguished by staff	0	0	<\$500.00

**Fire Marshal's Office meets UK Athletics for review and inspection of Pyro equipment for 2015 UK Football Season**

# ANNUAL FIRE SAFETY REPORT

## Calendar Year 2012

Date Occurred	Building Name	Cause	Injuries Requiring Treatment	Deaths Related to Fire	Value of Property Damage Caused by Fire in USD
02/19/12	Shawneetown (189)	Burning candles and incense inside the building (Threat of fire)	0	0	0
03/13/12	Alpha Delta Pi (0069)	Overheated belt on washer (Threat of fire)	0	0	\$500.00
03/17/12	Greg Page Bldg. #1 (0243)	Bathroom exhaust fan fire. (Working Fire)	0	0	\$1000.00
04/08/12	Patterson Hall (0009)	Trashcan fire on the front porch. (Working fire)	0	0	\$250.00
11/07/12	Kirwan 1 (0152)	Found burned toilet paper, paper towels and posters.	0	0	0
11/23/12	Greg Page Bldg. #4	Oven fire due to cooking and unclean oven	0	0	\$500.00

## Calendar Year 2011

Date Occurred	Building Name	Cause	Injuries Requiring Treatment	Deaths Related to Fire	Value of Property Damage Caused by Fire in USD
2/10/11	Blanding II	Halogen lamp smoldering on students bed	0	0	<500.00
2/15/12	Phi Theta Delta	Oily rags ignited in the kitchen. Removed by student.	0	0	0
4/18/12	Phi Theta Delta	Oven mitt caught fire from radiant heat while on shelf	0	0	0
12/19/11	Cooperstown Building B	Kitchen Fire contained to the stove top.	0	0	0

## Key

<sup>(1)</sup> Fire Alarm System - Consists of a fire alarm control panel, pull stations, smoke detectors and interconnection with any required suppression system. All fire alarm systems are monitored and notify the required personnel upon activation of an alarm.

<sup>(2)</sup> Sprinkler System - Water fire suppression systems. Upon activation, sounds an alarm in the facility affected and sends a signal to the monitoring company. The monitoring company notifies the required personnel.

<sup>(3)</sup> Smoke Detectors - Smoke sensing devices installed in required locations. Sounds a local alarm in the facility affected.

# ANNUAL FIRE SAFETY REPORT

## Fire Drill Policy

**Each on-campus housing facility is required to have fire drills in accordance with the Fire/Life Safety Policy for On-Campus Student Housing** [http://ehs.uky.edu/docs/pdf/fs\\_life\\_safety\\_policy.pdf](http://ehs.uky.edu/docs/pdf/fs_life_safety_policy.pdf).

**Part II, Section D, of the policy requires the following:**

1. Two fire drills shall be conducted during the Fall Semester. The first drill shall be an announced walk-through drill. The second drill shall be unannounced.
2. One unannounced drill shall be conducted during the Spring Semester
3. All fire drills shall be reported to the Office of the University Fire Marshal via the on-line fire drill report <http://ehs.uky.edu/apps/flashpoint/> within 48 hours of the event.
4. The fire alarm shall be utilized for each drill.
5. The Office of Residence Life shall schedule fire drills.

**Part III, Section B,** has all the same requirements as stated in Part II, Section D, with the exception being that the Dean of Students Office will schedule the drills for the on-campus Fraternities and Sororities.

Each facility listed on the Life Safety Equipment in Student Housing Facilities List (pages 2-4) is required to have fire drills. A record of each drill is kept on file in the Office of the University Fire Marshal.

For the year 2015, all Residence Halls, Apartments, Sororities, and Fraternities completed the required drills.

Asst. Fire Marshal Jason Ellis conducting fire training for Sorority Women

# ANNUAL FIRE SAFETY REPORT

## Electrical Appliances, Smoking and Open Flames

### The University Fire/Life Safety Policy for On-Campus Student Housing Policy

[http://ehs.uky.edu/docs/pdf/fs\\_life\\_safety\\_policy.pdf](http://ehs.uky.edu/docs/pdf/fs_life_safety_policy.pdf) contains information on electrical appliances, smoking and open flames.

**Part I, Section E**, is related to a student's room. In this section, students are informed that smoking is not permitted in any University building. Candles and incense (open flames) are not permitted in student housing.

**Part I, Section F**, is related to electrical issues. This section informs students that extension cords and multi-plug adaptors are not permitted in University housing, as well as how electrical equipment is to be maintained.

**Section G**, is related to appliances. This section bans the use of space heaters and halogen lamps. Microwave ovens and toasters are permitted as long as sufficient electrical current is available. All other cooking devices shall be located in a kitchen.

## Evacuation Policy

The University has a **mandatory evacuation policy** <http://ehs.uky.edu/fire/evacuation.html>. All students, faculty and staff are required to immediately evacuate in the event of a fire alarm. This policy applies to all buildings at any time. The only exception to this policy is in patient related areas. Such as the University Hospitals.

Any student that violates the evacuation policy is subject to disciplinary actions by the Dean of Students Office.

Utilizing the Building Emergency Action Plan (BEAP) the Hall Directors and Resident Advisors train occupants on the procedures for evacuation.

Procedures include but are not limited to:

1. When the alarm sounds start evacuating immediately.
2. Make sure the fire is not outside your door.
3. Never go toward the smoke (find another way out).
4. Go to your assigned meeting location.
5. If you are trapped by the fire call 911.
6. Report anyone that did not evacuate to your Resident Advisor or Hall Director.

# ANNUAL FIRE SAFETY REPORT

## Education and Training

All occupants living in on-campus housing are required to have fire/life safety training as outlined in the Fire/Life Safety Policy for On-Campus Housing [http://ehs.uky.edu/docs/pdf/fs\\_life\\_safety\\_policy.pdf](http://ehs.uky.edu/docs/pdf/fs_life_safety_policy.pdf). All fire/life safety training is required to be conducted or approved by the Office of the University Fire Marshal.

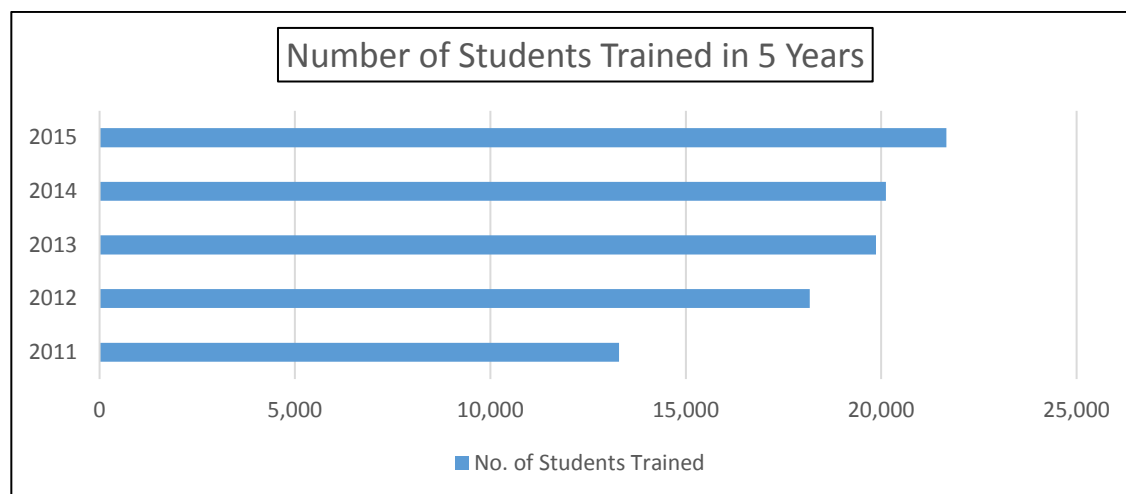

All Hall Directors and Resident Advisors are required to have fire and life safety training prior to students moving into the residence halls. Resident Advisors are required to complete a fire safety class within the first few weeks of each new school year.

The President or designee of each Greek Organization is to ensure that all occupants read and understand the fire/life safety policy and to schedule a fire/life safety class within the first two weeks of each semester.

Throughout the month of September, the Office of the University Fire Marshal and the Lexington Fire Department conduct training and sessions throughout the University. Dorm room burn simulation, T-shirt give away, fire extinguisher training and a smoke tent are set up at various locations.

In 2015 this office taught 345 classes and resulted in over 21,665 students receiving training in fire and life safety.

Students in randomly selected residence halls have fire drills using theatrical smoke. These drills provide students an opportunity to gain the understanding of what it is like in a real fire situation.

# ANNUAL FIRE SAFETY REPORT

## Who Needs to Know

All University buildings have fire alarm systems that are monitored by a central station. When an alarm is activated, the central station automatically notifies the Lexington Fire Department and the University Police Department (UKPD). Calling 911 is recommended after you have evacuated the building

The UKPD notifies all essential personnel via the RAVE system (cell phone, text and email). Students only need to report a fire to the UKPD via 911.

### **Numbers of Interest:**

<b>Emergency</b>	<b>911</b>	<b>Fire Marshal</b>	<b>859-257-8590</b>
<b>UKPD</b>	<b>859-257-5770</b>	<b>Dean of Students</b>	<b>859-257-3754</b>
<b>Housing</b>	<b>859-257-3844</b>	<b>Residence Life</b>	<b>859-257-4783</b>

## Looking Toward the Future

We look to the future with great anticipation. The University of Kentucky continues to grow at never seen before rate. In breaking ground for the state of the art Research Campus, the new Nutter Training Facility and the continued development of Student Housing Facilities a great deal of work is to be done.

With the influx of new AED's across campus the expansion of the certification program is on the horizon. People need the training to have the confidence to use the devices when needed.

Hosting NCAA events (1<sup>st</sup> and 2<sup>nd</sup> Rounds and Regional Events) has become a yearly thing. The success of these events is in the planning. In 2016 we will be hosting the Women's Regional Tournament. We look forward to facing the challenges.

We will continue to provide our customers a quality service. We will go above and beyond to make sure everyone is safe in our facilities.
